

# WHAT IS PATS?

The Payson Area Trails System (PATS) is an in-progress interconnecting trails system connecting existing USFS trails on the periphery of Payson with detached pathways and routes adjacent to Payson neighborhood streets. When completed, PATS will include approximately 20 miles of existing USFS trails and 20+ future miles within Payson town limits.

# TRAIL SAFETY & ETIQUETTE

- Observe all trail signs, including permitted trail user types.
- Select trails within your ability level, as many trails are quite strenuous.
- Be aware of changing weather and terrain conditions, which can change quickly, especially during monsoon season.
- Always leave the trail better than you found it. Never litter.
- Remember "wheels yield to heels". Bicyclists yield to all other trail users. Hikers yield to horse-back riders.
- Pets are permitted, but must be leashed at all times. Be courteous and prepared to clean up after your pet.
- Never stop where you obstruct the trail or are not visible to others.
- Never interact with wild animals. Respect landowner privacy. Many trails pass through residential areas.
- If you pass through a gate, always be sure to close it behind you.
- Use all Payson Area Trails courteously.
